## Pentecost Special Offering

The wonder of Pentecost is not lost on any of us. However, there is a special connection between Pentecost and Persians, who are among some of the most vibrant church growth occurring in the world today. Persia encompasses modern-day Iran, where Parthians, Medes, and Elamites were able to witness the miraculous birth of the church as recorded by Luke in Acts 2:9.

For several years, The Outreach Foundation has quietly labored among Persian-speaking believers, but now we support over a thousand house churches in Iran that are bearing witness to Christ. We also support ministries like satellite television programs, theological training, leadership development, and even the publication of Christian literature inside Iran.

Each of these ministries is led by the faithful and sacrificial efforts of Muslim background believers who have fled Iran and now live in the Persian-speaking diaspora. Several of them are still waiting for assignment to new home countries and have very few resources, yet their hearts burn to share the gospel of Jesus Christ in word and deed among their people. The Outreach Foundation invites you to stand among those who were first to bear witness to the glory of Jesus Christ and who are now witnessing the church grow exponentially with passion and energy!
